

AV ENGINEERING INC

ONE STOP SOLUTION

www.avengineeringinc.com

We Provide Universal Engineering and Product Solution.

AV Engineering's core objective is to embark on all the confront in the fields as point out above, to develop as a cost effective and efficient outcomes. We Provide Universal Engineering and Product Solution.

We facilitate new organization to fabricate their acquisition ability with global Engineering Services and supplies, help them to create their own product repo overseas. By looking at the present scenario, there are lot many companies around the world searching for the option to survive in global market by proving themselves as a worthwhile Service & product provider; however some of them might not have expertise and facility on such type of quality and intricate Engineering Skills.

Our Company offer Productive Business Resolution, Skilled Engineering Solution, Services and Logistic in every manner, develop your strategy worldwide, Design and promoting of whole project.

Support with knowledgeable workforce, AV Engineering INC is known to provide quality Services and Products to national and international clients and facilitate wide coverage reaching inaccessible projects and responding to client's prerequisite

Complete Engineering Services

Process Design , Engineering and Simulation

- Process Equipment Sizing – Preparation of Line & Equipment List, Sizing and Specification
- Thermal Design – Shell & Tube Heat Exchanger Design(HTRI/HTFS), Pressure Vessels, Columns, Reactors, Tanks, Bullets, Filters, Dryers and Agitators
- Process Design optimization – Conceptual Process Scheme and simulation model of process plant
- Development of PFD and P&ID – Process Flow Diagram with heat & mass balance and Piping & Instrumentation Diagram
- Concept block flow diagrams
- Detailed CAD drawings • Audits and system analysis • Project estimating and schedule
- General assembly drawings • Component equipment lists • Operating and maintenance manuals
- Process control panel design • Turnkey process and utility system plans

Mechanical Engineering

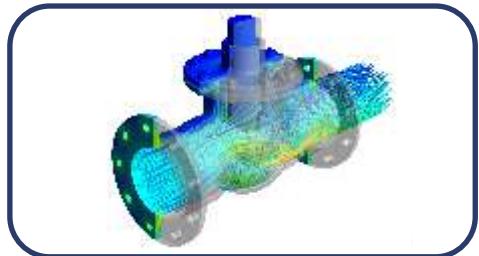

Mechanical Design of following Including Generation of Specification, Data Sheet, GA Drawings, Fabrication drawings, and Design Calculation

- Ejectors • Heat Exchangers • Crystallizers • Reactors, Columns & Tall Towers
- Evaporators • Pressure Vessels • Water Coolers & Gas Coolers • Pulsation Dampeners & Volume Bottles
- Condenser • Feed Water Heaters • Exhaust Gas Structure • Receivers, Tanks & Cryogenics
- Structural items such as skids, supports of vessels / exchangers i.e. skirt with base chair, legs, lugs, pipe supports, saddles and their bolting etc. and lifting elements such as lifting lugs, tailing lugs etc.

Design Analysis

- Finite Element Analysis(FEA)
- Computational Fluid Dynamics (CFD)
- Thermal Stress Analysis
- Wind Analysis
- Seismic Analysis
- Local Load Analysis
- Zick Analysis
- Rigging Analysis
- Clip Analysis
- Lifting lug analysis

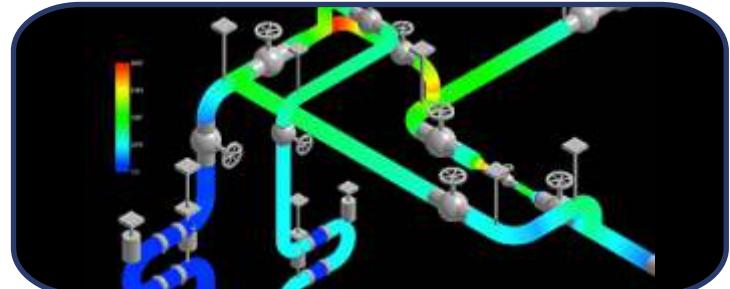

Piping Design Engineering

- Generation of Equipment Layout, Piping General Arrangement Drawings, Piping Routing Layout and Isometrics.
- Pipe wall Thickness calculation, sizing and pressure drop calculation.
- Pipe Rack Design and Tank farm Design.
- Preparation of Tendering and Material Takeoff (MTO) for all piping items.
- Preparation of Data Sheets for Piping, Fittings, Valves, Strainers and all other Piping items.
- Generation of 3D model of the complete Plant

Piping Stress Analysis

- Seismic, Static & Dynamic load Analysis
- Pipe support(s) selection & Design
- Spring & Special Support Design
- Flange leakage checking
- Piping Flexibility calculation
- Analysis of Jacketed Piping Ducting, Buried Piping
- Solution on Piping Vibration problems.

Statutory Approvals

Statutory Approvals, Inspection and Translation Service

- Complete solution on Approvals & Certification for Different Country
- GOST TRCU Certificates of Conformity Custom Unions of Russia
- CE marking on product for Europe
- Explosion-proof Certificates
- Technical Passports
- ASME U stamp
- DOSH and MOM Certificate for Malaysia and Singapore
- CRN Approvals for Canada
- Technical Translation and Editing for all language
- Preparation and Review of Technical Documents Packages
- Manufacturer Inspection and Audits

Civil and Structure Engineering

- Civil and Structural Design, Calculation and Analysis
- Structure Foundation Design
- Design of Module Mounting structure, Equipment Supporting Structure, Pipe Rack routing and support design.
- Geotechnical Investigation and Topographical Survey.

- Preparation of Instrument list, Wiring diagram and Cable Schedule.
- Preparation of Instrumentation - automation Philosophy and Control Narratives.
- Junction box Designing
- Advanced process control (APC) and Distributed control systems (DCS)
- PLC and SCADA

Instrumentation Engineering

Electrical Engineering

- Feasibility Study, Project Concept and Formulation
- Comprehensive Project Report
- Simulation Modeling and Analysis
- Engineering - Design & Selection of Power Plant equipment - Preparation of single line diagrams, Plant Layout, Substation diagram, Wiring Diagram, Earthing diagram, Cable schedule, Cable Trench Layout and power evacuation plans.
- Solar Power Plant – Energy solutions for MW to kW Utility scale and Roof top Solar Power Plant Project

- Project Planning and scheduling
- Identification and management of project critical activities.
- Time/Duration, Cost/Price, Resource and QC/QA Management.
- Progress Monitoring, Anticipation of delay and trouble shooting.
- Interfacing multiple agencies incl. contractors, vendors, government authorities, statutory bodies and others involve at project site.
- Work completion certification, disbursement compliance and overall control.

Project Management Consultancy (PMC)

Sourcing and Supplying Engineering Products

Plates and Coils
All kind of Stainless Steel, Carbon Steel, Aluminum, Brass, Nickel, Alloy Plates and Coils

Pipes, Tubes and Fittings
Stainless Steel, Carbon Steel, Alloy Seamless and Welded Longitudinally Welded Saw, Spiral Welded, Electric Resistance Welded (ERW) and High Frequency Induction (HFI) Welded Pipe

Gaskets
Non-Metallic, Semi-Metallic and Metallic Types
CAF, CNAF, Spiral Wound, Ring Joint Asbestos free
Soft Cut Gaskets as per ASME, ANSI, API Flange requirements

Flanges
SS, CS and Alloy Steel – Forged and Plate.
Welding Neck, Slip On, Socket Weld, Lap Joint, Threaded and Blind Flange

Casting
Centrifugal, Investment, Die, Sand, Gravity,
Squeeze, Permanent Mold & Shell Mold,
Lost Foam & Lost Wax

Forging
Hot & Cold Forgings –
CS, SS and Alloy Steel

Complete Range of Valves

Gate Valve
Globe Valve
Ball Valve

Plug Valve
Butterfly Valve
Check Valve

Bellows sealed Valve
pressure seal Valve
Breather Valve

Orbit Valve
ARV or ARC Valve
Pressure Relief Valve

Rupture Disks
Control Valve
Turbine Bypass Valve

Control Instruments

All types of Gauges, Meters, Actuators, Transmitters, Transducers, Thermowell, Thermocouple and Manifolds

Special Components

Strainer - Y-Type & Basket, Expansion Joints
Orifice Plates, Flow Measurement
Venturi Flow Meters, Flow Nozzles
Flow Orifice Plates

Electrical control & Automation Panel

Instrumentation Panel, PLC Based Systems & Micro controller Based Control Panels, Hazardous Area Panels – Flame proof & Pressurized Panels, SCADA Systems and Junction box

Fasteners

CS, SS, Alloys, Duplex, Super Duplex, Monel, High Nickel Stud, Bolts, Nuts, Washers, Threaded Roll, Socket Screw and Hex Bolt

CNC Machining Components

We offer latest CNC equipments with large varieties of different machine sizes which cover almost any shape and sizes of the jobs with simple 2D machining to 5-axis machining capabilities.

Materials we offer – Carbon Steels, Stainless steel, Alloy Steels, Aluminum, Brass, Plastic and any other materials as per customer requirement. We also offer secondary operations like finish process (various plating/ passivation/corrosion prevention etc) and heat treatment as per customer specifications for above material.

Pressure Reducing Station (PRS) and Metering Skid

- PRS , PRDS, Flow Control Skid, Metering Skid, Filtration Skid and Pressure Regulation Skid
- Serving for Power, Oil, Gas, Pharma, Dairy, Textile and Chemical Industry.

- All kind of Pressure vessel and Heat Exchanger.
- Available in CS, SS, Graphite, Teflon and all other Exotic material.

Process Equipment

Pharma Grade Equipment and Steam Accessories

Equipments & Pressure Vessels

- Fermentor (Bioreactor)
- Bio-reactors
- SIP (Sterilization-In-Place),
- CIP (Clean-in-Place) Equipment
- Pressure Vessels

- Sanitary Valves
- Sanitary Pressure Regulating Valve and Pressure Regulator
- Sanitary Steam Traps and other Steam Accessories

Pharma grade valves (Sanitary Valves)

Dairy Equipment & Accessories

- Dairy and Milk Processing Equipment
- Milk Product Processing Line
- Pretreatment line
- Dairy Equipment Accessories such as Valves, Instruments etc.

Asia Office

📍 C-107, Tower - C, Siddhi Vinayak Towers,
B/h. DCP Office, Makarba,
Off. S. G. Highway,
Ahmedabad - 380 051, Gujarat, India.
